## Over 30 Years of Experience...

Global Relationship Centers (GRC), Inc. is an international organization dedicated to enhancing lives by helping people to be happier, more productive, and more successful.

Global courses are rooted in the Individual Psychology of Alfred Adler. The leading idea is that the development of our character, or life style, is through the attitude we adopted towards our childhood experiences. Additionally, our lives involve addressing three social tasks: work, which means contributing to the welfare of others; friendship, which embraces social relationships with friends and relatives; and, love, which is the most intimate union between two partners. The higher our social interest, or cooperation with others, the greater the ease and satisfaction we derive from life.

GRC, Inc. was created by Bill Riedler, who studied with Rudolf Dreikurs, MD, a relationship and family therapist at the Adler Institute in Chicago. Visit the Corporate Website at [www.grc333.com](http://www.grc333.com).
